SUPERIOR BED BUG PROTECTION

The Mattress by Appointment Mattress Encasement is a critical tool in preventing bed bug infestation. An impenetrable encasement product is vital to insuring the ultimate protection against bed bugs, as well as dust mites, allergens, mold and moisture for mattresses and box springs of all sizes. The Mattress by Appointment Mattress Encasement line features a four-sided zipper encasement known as SecureZZip®, the industry's first and only encasement providing 360° zipper access around the entire perimeter of the mattress and box spring, enabling users to simply unzip the product while leaving the bottom surface in place. SecureZZip® also features SlumberShield's proprietary BedBugBanisher® Zipper Lock.
